**Abstract.** You should leave 8 mm of space above the abstract and 10 mm after the abstract. The heading Abstract should be typed in bold 9-point Arial. The body of the abstract should be typed in normal 9-point Times in a single paragraph, immediately following the heading. The text should be set to 1 line spacing. The abstract should be centred across the page, indented 17 mm from the left and right page margins and justified. It should not normally exceed 200 words.

**Keywords:** 4-7 keywords

## 1 Page layout

Use 170 x 250 mm paper size (W x H mm) and adjust the margins to those shown in the Table 1. The final printed area will be 130 x 210 mm. Do not add any page numbers.

### 1.1 Formatting the title, authors and affiliations

#### 1.1.1 Formatting the title

---

\* Corresponding author: [author@email.org](mailto:author@email.org)

The title is set in bold 16-point Arial, justified. The first letter of the title should be capitalised with the rest in lower case. You should leave 22 mm of space above the title and 6 mm after the title.

### 1.1.2 Formatting author names and author affiliations

The style for the names is First Names, typed in italic 10-point Times, then Last Name, typed in 10-point Times, with a comma after all except the last author, which is separated by comma + “and”. Do not use academic titles.

Affiliations of authors should be typed in 9-point Times. They should be preceded by a numerical superscript corresponding to the same superscript after the name of the author concerned. Please ensure that affiliations are as full and complete as possible and include the country.

## 1.2 Formatting the text

The text of your paper should be formatted as follows:

- 10-point Times, Times Roman or Times New Roman.
- The text should be set to single line spacing.
- Paragraphs should be justified.
- The first paragraph after a section or subsection should not be indented; subsequent paragraphs should be indented by 5 mm.

The use of sections to divide the text of the paper is optional and left as a decision for the author. Where the author wishes to divide the paper into sections the formatting shown in Table 2 should be used.

**Table 2.** Formatting sections, subsections and subsubsections

	Font	Spacing	numbering
Section	12-point <b>Arial bold</b>	6 mm before 3 mm after	1, 2, 3, etc.
subsection	10-point <b>Arial bold</b>	6 mm before 3 mm after	1.1, 1.2, 1.3, etc.
subsubsection	10-point <i>Arial Italic</i>	6 mm before 3 mm after	1.1.1, 1.1.2, 1.1.3, etc.

## 2 Figures and tables

Figures and tables, as originals of good quality and well contrasted, are to be in their final form, ready for reproduction, pasted in the appropriate place in the text. Try to ensure that the size of the text in your figures is approximately the same size as the main text (10 point). Try to ensure that lines are no thinner than 0.25 point.

### 2.1 Captions/numbering

Captions should be typed in 9-point Times. They should be centred above the tables and flush left beneath the figures.

## 2.2 Positioning

Place the figure as close as possible after the point where it is first referenced in the text. If there is a large number of figures and tables it might be necessary to place some before their text citation.

## 2.3 Colour illustrations

You are free to use colour illustrations for the online version of the proceedings but any print version will be printed in black and white unless special arrangements have been made with the conference organiser. Please check whether or not this is the case. If the print version will be black and white only, you should check your figure captions carefully and remove any reference to colour in the illustration and text. In addition, some colour figures will degrade or suffer loss of information when converted to black and white, and this should be taken into account when preparing them.

## 3 Equations and mathematics

Equations should be centred and should be numbered with the number on the right-hand side.

$$T_s(l, t) = T_g(l, t) \quad (1)$$

Use italics for variables (*u*) and bold (**u**) for vectors. The order for brackets should be  $\{\{\}\}$ , except where brackets have special significance.

The acknowledgements should be typed in 9-point Times, without title.

## References

15-30 references – no more! Minimum 10 references have to be from Web of Science or Scopus Database! All references in the text must be cited in the list of references (and vice versa). Please focus on impact journals from last 5 years.

Online references will be linked to their original source, only if possible. To enable this linking extra care should be taken when preparing reference lists.

References should be cited in the text by placing sequential numbers in brackets (for example, [1], [2, 5, 7], [8-10]). They should be numbered in the order in which they are cited. A complete reference should provide enough information to locate the article. References to printed journal articles should typically contain:

- The authors, in the form: initials of the first names followed by last name (only the first letter capitalized with full stops after the initials),
- The journal title,
- The volume number (bold type),
- The journal number (in brackets),
- The article number or the page numbers,
- The year of publication (in brackets).

Authors should use the forms shown in Table 3 in the final reference list.

**Table 3.** Font styles for a reference

Element	Style
Authors	Normal Initials followed by last name
Journal title	Normal
Book title, Proceedings title	Italic
Volume number	Bold
Article number	Normal In brackets
Page number	Normal
Year	Normal In brackets

## **Important information !!!**

1. The paper must be an original unpublished work written English language.
2. All papers are subjected to a double-blind, peer-review process. Firstly, each submission is reviewed by the conference editors, who may reject it, if it is not dealing with the subject matter of the conference and does not meet the conference requirements or if it is of a low quality.
3. Please, rename the documents according to the surnames of all authors, for example: Vochozka\_Vrbka\_PAPER.
4. The length of the paper should be 6 to 10 pages (in some cases, a longer article may be accepted) and should be prepared in compliance with the conference paper template and in the following structure: Introduction, Methodology, Results, Discussion and Conclusion. In the introduction, the current level of knowledge must be described. Methodology states detailed methodology and data used. In the Results and Discussion the author introduces research results that should be obtained using sophisticated statistical methods, then interprets them in an economic manner, while comparing them with sources listed in the theoretical part, or justifies the excellence of his/her own results. In the Conclusion the author evaluates whether the aim of the paper was fulfilled and presents the main findings of the research.
5. Each article must contain the aim of the research, or hypotheses, research question.

6. For writing formulas, please use the Equation Editor from Microsoft Word.
7. All abbreviations must be explained.
8. 15-30 references – no more! Minimum 10 references have to be from Web of Science or Scopus Database.
9. After the final acceptance of the paper for publication in the conference proceedings authors sign the copyright declaration, which is the final formal condition for publication of the paper.
